

New Model Club

As with our other Model Clubs listed on the back page, this will be a functioning model investment club and the planning and operation of the club will be left to the people who become members. The main difference between a model club and a regular investment club is that the model club has meetings open to the public. This club will “model” the best practices of a typical BetterInvesting club and will adhere, as much as possible, to BetterInvesting methods and to the BI philosophy of investing. The club members will be charged with setting a monthly meeting date, adopting a partnership agreement, procuring a broker and a bank account, registering with the county, setting an educational program, electing officers, determining monthly contributions, etc.

All members of this club will be (or will become) members of BetterInvesting, must have a working email address, will own or be willing to purchase a licensed copy of Toolkit 6 or the Online Tools, will subscribe to the Stock Data feed from BetterInvesting and will participate in club education and industry studies. A minimum of 12 organizing members will be needed for the program to proceed.

Members may belong to another investment club, be an individual investor looking for a club or individuals who wish to expand their knowledge of investing in the stock market through evaluation of growth companies.
